 Overview of activity, 2005 - 2007

Table 1: Overview of activity

Age of patient (years)	Number of patients on transplant list (daily average)	Percentage ¹ of patients ² receiving kidney only transplant within 1 year of listing	Number of transplants carried out (annual average)				Number ³ of kidneys ⁴ retrieved by alliance (annual average)	
			All transplants	Kidney only transplants from:				Multi-organ transplants that include a kidney
				Heartbeating donors	Non-heartbeating donors	Live donors		
≥18	277	17	68	38	10	19	2	284

¹ As a percentage of the number of patients newly listed on the deceased donor transplant list between 2003 and 2005
² Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for kidney/pancreas transplant
³ Total of kidneys retrieved by centres in the North Thames alliance
⁴ Kidneys donated by adult or paediatric deceased or live donors

**Patients listed at Middlesex Hospital have their transplants done by The Royal Free Hospital in London. Data for this centre are included throughout this report.

Table 2: Donors (Note: Deceased donor numbers are totals for all centres in the North Thames alliance)

Deceased donors (annual average)			Live donors (annual average)	
Heartbeating	Non-heartbeating		Number	% of transplants in which kidneys from live donors were used ^{2,3}
Number	Number	% of transplants in which kidneys from non-heartbeating donors were used ^{1,2}		
74	13	10	19	7

¹All non-heartbeating donor kidneys were transplanted in adult patients

²As a percentage of all transplants at the alliance (non-heartbeating donors) or centre (live donors) in adult or paediatric patients using kidneys from live or deceased donors

³See Table 4 for numbers of transplants in paediatric and adult patients

Table 3: Patients on the active transplant list

≥18	277	+9	232	10	17	29

¹Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for a kidney/pancreas transplant
