

Great Ormond Street Hospital for Children, London  
 Overview of activity, 2005 - 2007

Table 1: Overview of activity

Age of patient (years)	Number of patients on transplant list (daily average)	Percentage <sup>1</sup> of patients <sup>2</sup> receiving kidney only transplant within 1 year of listing	Number of transplants carried out (annual average)					Number of kidneys <sup>3</sup> retrieved by unit (annual average)
			All transplants	Kidney only transplants from			Multi-organ transplants that include a kidney	
				Heartbeating	Non-heartbeating	Live donors		
<18	27	57	25	13	0	12	0	12

<sup>1</sup> As a percentage of the number of patients newly listed on the deceased donor transplant list between 2003 and 2005

<sup>2</sup> Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for kidney/pancreas transplant

<sup>3</sup> Kidneys donated by adult or paediatric live donors - no deceased donor retrievals are done by this centre

Table 2: Donors

Deceased donors (annual average)			Live donors (annual average)	
Heartbeating	Non-heartbeating		Number	% of transplants in which kidneys from live donors were used <sup>2,3</sup>
Number	Number	% of transplants in which kidneys from non-heartbeating donors were used <sup>1,2</sup>		
0	0	-	12	49

<sup>1</sup>As a percentage of all kidney transplants at the centre

Table 3: Patients on the active transplant list

Age of patient (years)	Number of patients on the transplant list (daily average)	Percent change in list size over time period	Number of patients joining the deceased donor transplant list (2003-2005) <sup>1</sup>	Percentage of patients receiving kidney only transplant within:		
				6 months	1 year	2 years
<18	27	0	44	45	57	75

<sup>1</sup>Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for a kidney/pancreas transplant

Table 4: Transplants
