

West London Renal and Transplant Centre, London**
Overview of activity, 2006 - 2008

Table 1: Overview of activity

Age of patient (years)	Number of patients on transplant list (daily average)	Percentage ¹ of patients ² receiving kidney only transplant within 1 year of listing	Number of transplants carried out (annual average)				Number ³ of kidneys ⁴ retrieved by alliance (annual average)	
			All transplants	Kidney only transplants from:				Multi-organ transplants that include a kidney
				Heartbeating donors	Non-heartbeating donors	Live donors		
≥18	421	13	155	49	9	87	10	340

¹ As a percentage of the number of patients newly listed on the deceased donor transplant list between 2004 and 2006
² Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for kidney/pancreas transplant
³ Total of kidneys retrieved by centres in the North Thames alliance
⁴ Kidneys donated by adult or paediatric deceased or live donors

**Patients listed at St Mary's Hospital have their transplants done by West London Renal and Transplant Centre based at Hammersmith Hospital. Data for this centre are included throughout this report.

West London Renal and Transplant Centre, London
Details of activity, 2006 - 2008

Table 2: Donors (Note: Deceased donor numbers are totals for all centres in the North Thames alliance)

Deceased donors (annual average)			Live donors (annual average)	
Heartbeating	Non-heartbeating		Number	% of transplants in which kidneys from live donors were used ^{1,2}
Number	Number	% of transplants in which kidneys from non-heartbeating donors were used ¹		
82	21	10	88	28

¹ As a percentage of all transplants at the alliance (non-heartbeating donors) or centre (live donors) in adult or paediatric patients using kidneys from live or deceased donors

² See Table 4 for numbers of transplants in paediatric and adult patients

Table 3: Patients on the active transplant list

Age of patient (years)	Number of patients on the transplant list (daily average)	Percent change in list size over time period	Number of patients joining the deceased donor transplant list (2004-2006) ¹	Percentage of patients receiving kidney only transplant within:		
				6 months	1 year	2 years
≥18	421	+32	419	8	13	20

¹ Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for a kidney/pancreas transplant

Table 4: Transplants

Age of patient at transplant (years)	Number of transplants carried out (annual average)	Number of kidney only transplants from: (annual average)			Number of multi-organ transplants that include a kidney (annual average)
		Deceased donors		Live donors	
		Heartbeating	Non-heartbeating		
≥18	155	49	9	87	10

West London Renal and Transplant Centre, London
Survival rates

Table 5: Survival rates for adult (age \geq 18 years) transplant patients¹
(Note: Only the risk-adjusted rates for a centre can be validly compared with the 'All centres' rates)

	This centre					All centres		
	Number of transplants	Unadjusted		Risk-adjusted		Number of transplants	Survival estimate (%)	95% CI
		Survival estimate (%)	95% CI	Survival estimate (%)	95% CI			
First deceased donor transplants								
1 year survival Graft	216	95	(91, 97)	96	(83, 100)	4923	93	(92, 93)
Patient	216	97	(94, 99)	97	(84, 100)	4923	96	(96, 97)
5 year survival Graft	237	86	(81, 90)	87	(76, 100)	4989	82	(81, 83)
Patient	237	88	(83, 92)	88	(76, 100)	4989	87	(86, 88)
Live donor transplants								
1 year survival Graft	268	94	(91, 97)	94	(83, 100)	2670	96	(95, 97)
Patient ²	231	99	(96, 100)	99	(86, 100)	2305	99	(98, 99)
5 year survival Graft	86	90	(81, 95)	90	(71, 100)	1583	89	(87, 90)
Patient ²	73	94	(85, 98)	95	(74, 100)	1386	95	(94, 96)

¹ Cohorts for survival rate estimation:
1 year survival: 1 Jan 2003 - 31 Dec 2007
5 year survival: 1 Jan 1999 - 31 Dec 2003

² First grafts only - re-grafts excluded for patient survival estimation
